Confirmation of Compliance with the PPWR – Article 5

We hereby confirm that the packaging and packaging components we supply comply with the requirements of Regulation (EU) 2025/40 on Packaging and Packaging Waste (PPWR).

In particular, we confirm compliance with the requirements set forth in Article 5 of the PPWR. The substances contained in our packaging comply with the applicable requirements of the REACH Regulation (EC) No. 1907/2006. To the best of our current knowledge, our packaging does not contain any substances in concentrations that conflict with the requirements of Article 5 of the PPWR or the applicable restrictions of the REACH Regulation. Furthermore, our packaging is manufactured in such a way that the presence and concentration of substances of concern are limited to the minimum necessary and do not impair the reuse, recycling, or safe recovery of the packaging.

The requirements set forth in the PPWR regarding PFAS (per- and polyfluoroalkyl substances) for food contact packaging do not apply to our product range, as we do not manufacture or distribute any packaging intended for contact with food.

This confirmation is made to the best of our knowledge and based on the information available to us from our suppliers as well as from our internal quality and compliance processes.

Best regards from Schotten
